Seeds of Deception: Exposing Industry and Government Lies About the Safety of the Genetically Engineered Foods You're Eating

By Jeffrey M. Smith

Yes! Books, United States, 2003. Paperback. Book Condition: New. Pbk.. 239 x 157 mm. Language: English . Brand New Book. Without knowing it, Americans eat genetically modified (GM) food everyday. While the food and chemical industries claim that GMO food is safe, a considerable amount of evidence shows otherwise. In *Seeds of Deception*, Jeffrey Smith, a former executive with the leading independent laboratory testing for GM presence in foods, documents these serious health dangers and explains how corporate influence and government collusion have been used to cover them up. The stories Smith presents read like a mystery novel. Scientists are offered bribes or threatened; evidence is stolen; data withheld or distorted. Government scientists who complain are stripped of responsibilities or fired. The FDA even withheld information from congress after a GM food supplement killed nearly a hundred people and permanently disabled thousands. While Smith was employed by the laboratory he was not allowed to speak on the health dangers or the cover-up. No longer bound by this agreement, Smith now reveals what he knows in this groundbreaking exposé. Today, food companies sell GM foods that have not undergone safety studies. FDA scientists opposed this, but White House and industry pressure...
