*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.*

## BEYOND CERTIFICATION

Sedition Publishing T/A Do Sustainability, United Kingdom, 2015. Paperback. Book Condition: New. 206 x 145 mm. Language: English . Brand New Book. Is certification the solution? Can it deliver urgently needed improvements to complex problems like deforestation and the exploitation of people? In this controversial new book, Scott Poynton, founder of The Forest Trust, makes a compelling case for a new approach to social and environmental problems that goes beyond certification . Certification emerged from the 1992 Rio Earth Summit amidst great hope. Since then, despite a proliferation of certification schemes in twenty-five industry sectors, the destructive and irresponsible exploitation of natural and human resources has grown still worse. Beyond Certification reviews the positive aspects of certification, of which there are many, but argues that we can no longer afford to gloss over its failures. The book offers an alternative model, VT-TV, based on Values, Transparency, Transformation and Verification, which the author has been exploring and implementing with over 70 companies and industries around the world. These companies are transforming the story of the raw materials they use -- wood, palm oil, pulp and paper, stone, charcoal, soy, beef, sugar, dairy, rubber, coffee, cocoa and coconut. Mining companies are also exploring this approach, and making decisions aligned with fundamental values and what they know to be right. The results? Trust is emerging as former combatants awake to the importance of working together. Guns have been removed from forests, land set aside for protection, worker rights and conditions improved and long-standing conflicts have been resolved as people confront their legacies. Beyond Certification does not claim that this VT-TV model is the only solution. Rather, it shows how new and seemingly radical thinking can catalyze positive change. Included: The limits of roundtable certification illustrated with real, practical examples The intricacies of the...
