*This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Chelsea Green Publishing Co, United States, 2013. Paperback. Book Condition: New. Reprint. 201 x 127 mm. Language: English . Brand New Book. The earth is in great peril, due to the corporatization of agriculture, the rising climate crisis, and the ever-increasing levels of global poverty, starvation, and desertification on a massive scale. This present condition of global trauma is not natural, but a result of humanity's destructive actions. And, according to Masanobu Fukuoka, it is reversible. We need to change not only our methods of earth stewardship, but also the very way we think about the relationship between human beings and nature. Fukuoka grew up on a farm on the island of Shikoku in Japan. As a young man he worked as a customs inspector for plants going into and out of the country. This was in the 1930s when science seemed poised to create a new world of abundance and leisure, when people fully believed they could improve upon nature by applying scientific methods and thereby reap untold rewards. While working there, Fukuoka had an insight that changed his life forever. He returned to his home village and applied this insight to developing a revolutionary new way of farming that he believed would be of great benefit to society. This method, which he called natural farming, involved working with, not in opposition to, nature. Fukuoka's inspiring and internationally best-selling book, *The One-Straw Revolution* was first published in English in 1978. In this book, Fukuoka described his philosophy of natural farming and why he came to farm the way he did. *One-Straw* was a huge success in the West, and spoke directly to the growing movement of organic farmers and activists seeking a new way of life. For years after its publication, Fukuoka traveled around the world spreading...
