*Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).  
(Pasquale Larkin I)*

## WHAT IS SOCIOLOGY?

Columbia University Press, United States, 1984. Paperback. Book Condition: New. Revised ed.. 216 x 136 mm. Language: English . Brand New Book. What is Sociology? presents in concise and provocative form the major ideas of a seminal thinker whose work-spanning more than four decades-is only now gaining the recognition here it has long had in Germany and France. Unlike other post-war sociologists, Norbert Elias has always held the concept of historical development among his central concerns; his dynamic theories of the evolution of modern man have remedied the historical and epistemological shortcomings of structuralism and ethno-methodology. What is Sociology? refines the arguments that were first found in Elias massive work on the civilizing process, in which he formulated his major assertions about the interdependence of the making of modern man and modern society. It is Elias contention that changes in personality structure-embodied in phenomena ranging from table manners and hygiene habits to rites of punishment and courtly love-inevitably reflect and mould patterns of control generated by new political and social institutions. Elias rejection of a dichotomy between individual and society, and his use of psychoanalysis, political theory, and social history, help restore a fullness of resource to sociology.
